-

Job Description

Responsibilities:

1. Manage and maintain the organization's IT infrastructure, including hardware, software, networks, and servers.
2. Install, configure, and troubleshoot computer systems, software applications, and peripheral devices.
3. Monitor system performance and security, ensuring compliance with company policies and procedures.
4. Provide technical support to internal users, resolving hardware and software issues promptly and efficiently.
5. Implement and maintain backup and disaster recovery solutions to ensure data integrity and availability.
6. Collaborate with other departments to identify IT needs and propose solutions to enhance efficiency and productivity.
7. Stay up-to-date with the latest technology trends and best practices, recommending upgrades and improvements as needed.
8. Manage vendor relationships and procurement processes for IT equipment and services.
9. Develop and maintain documentation, including system configurations, user manuals, and troubleshooting guides.
10. Train and educate staff on IT policies, procedures, and best practices to promote a culture of security and compliance.
